Corning Contact & Condition Details:

QUOTE NUMBER:	310308529
VERSION:	1
STRATEGY:	Project
VALID FROM:	09/03/2025
EXPIRATION DATE:	03/03/2026
CORNING AGENT:	DDDSTNAFTA@CORNING.COM OR DDDIRNAFTA@CORNING.COM
PAYMENT TERMS:	NET 60 DAYS
DELIVERY TERMS:	ORIGIN FREIGHT COLLECT
PROJECT REFERENCE:	TSC - 2025 Semi-Precon
SPECIALIST:	Keara Koehler
SALES CONTACT:	Jordan Locke
REVISION NOTE:	

Thank you for choosing Corning Optical Communications to provide you with a quote for the above project. We appreciate the opportunity to offer our products and solutions to meet your telecommunications needs. Should you have any questions concerning your quote, please feel free to contact any of the Corning Optical Communications representatives listed below. You can also visit our website at www.corning.com/opcomm for the latest information regarding any items referenced below.

This quotation is not a contract or legally binding offer by Corning Optical Communications LLC. Your response to this quotation does not bind Corning Optical Communications in any way. No binding contract is created unless Corning Optical Communications accepts, in writing, your written offer to purchase products subject to Corning Optical Communications' standard terms and conditions. Terms and conditions are available at: <https://www.corning.com/catalog/coc/documents/misc/COC-StandardTermsandConditions-COR-0141-AEN.pdf> or contact Customer Operations directly. Any contrary or additional terms in a purchase order are invalid and non-binding on Corning Optical Communications. Corning Optical Communications reserves the right to revise or withdraw this quotation at any time.

All orders must reference Quote Number 310308529 to process quoted prices based on Terms & Conditions within this document. Please contact our Customer Operations for current lead times when placing orders in reference to this quote via Email to hickory.cs@corning.com or via Fax to (828)325-5060. Order status can be viewed online at <http://ordertracker.corning.com> or by calling (800)743-2671. Please feel free to contact us if further information is required regarding this proposal.

All prices contained on this quotation are calculated based on the quantity quoted. Prices may vary based on actual quantity ordered. This document replaces and voids any prior revisions of this quotation issued by Corning Optical Communications.

Prices quoted above assume Standard Minimum Order Quantities (MOQ). For cable requests, to reduce the standard MOQ to the Minimum Manufacturing Quantity (MMQ) at time of order entry, a 10% surcharge will apply.

Corning Optical Communications' quotation and offer to sell you the Outside Plant Cable products described below is conditioned on the express condition that Corning Optical Communications may, in its sole discretion and without any financial or other liability to you, adjust the tentative ship date of your order depending on the availability of optical fiber. By submitting an order to Corning Optical Communications for the products described in this quote, you agree that you accept the above terms and all terms and conditions contained in this quotation, including Corning Optical Communications' ability to adjust ship dates.

All prices, product data and other technical and commercial information supplied by Corning Optical Communications in connection with this quotation shall be held in confidence by the named recipient and organization. Such information shall not be reproduced nor disclosed to others without Corning Optical Communications' prior written consent.

This is a suggested Bill of Materials based on information provided to Corning Optical Communications as well as any necessary assumptions. The customer is responsible for ensuring the Bill of Materials is correct and complete and meets the project requirements. Any items referencing this quotation that are 1) not listed on quotation at time of order entry or 2) shipping to a distributor location, will be processed using the current standard price at order entry.

CUT LENGTHS: Exact cut lengths required for each fiber cable must be specified on the purchase order. Corning Optical Communications will not begin cable manufacture without this information.

Outside Plant Cables (non-flame retardant designs): the initial reel for each different part number will be included at no charge. For every incremental length equal to the MOQ stated in the line item above for each different part number a reel/cut would be included at no charge, unless dictated otherwise in a formal contract. The total length ordered divisible by the MOQ required equals the number of reels/cuts allowed without extra charge. If additional cable cuts are required, the charge for material and handling will be \$250 for each Loose Tube or Ribbon cut/reel and \$35 for each Single Tube cut/reel.

Flame Retardant Cables: the initial reel for each different part number will be included at no charge. For every incremental length equal to the MOQ stated in the line item above for each different part number a reel/cut would be included at no charge, unless dictated otherwise in a formal contract. The total length ordered divisible by the MOQ required equals the number of reels/cuts allowed without extra charge. If additional cable cuts are required, the charge for material and handling will be \$75 for each cut/reel.

Allowable cable length overage for shipping and billing is -0%/+5% unless otherwise noted on quotation, contractual agreement, or is agreed upon at time of order. Please refer to our website at www.corning.com/opcomm for information on the products quoted herein or contact Customer Operations for additional information.

This quotation is based on testing and documentation in accordance with Corning Optical Communications standard practices. Additional testing, packaging and/or inspection requirements will be priced separately.

Shipping Location:

Fiber Optic Cable: Origin = Hickory, NC 28601 U.S.A. or Winston Salem, NC 27107 U.S.A or Reynosa, Mexico.
